EDUCATION

B-TECH

Computer Science and Engineering

MPGI,

Aug 2020 - Jul 2023

DIPLOMA

Diploma in computer engineering

MPVPI,

June 2017 - Aug 2020

EXPERIENCE

Experience at Fyn tune Solution Private Limited

Mumbai

React JS Developer

- Developed and maintained a motor insurance software for multiple companies, including Bajaj Capital, Tata, ABIBL, OLA, Insuring All, Renew-by, and more, facilitating online insurance purchases.
- Created and managed the UI using React JS and various UI frameworks, including Bootstrap, MUI, Styled-Components, and Tailwind CSS.
- Utilized Redux Toolkit for state management and integrated APIs using Axios, ensuring efficient data handling and a seamless user experience.
- Integrated APIs and handled state management using the Redux Toolkit, ensuring seamless data flow and state consistency across the application.
- Implemented form validation using the react-hook-form and yup packages, ensuring data integrity and improving user experience.
- Collaborated with testers and designers in regular meetings to refine the application, refactoring code for clarity and correcting any errors.
- Developed dynamic components and themed interfaces, including dashboards and data tables, to display company-specific data effectively.

MOTOR INSURANCE PROJECT

- Developed and maintained motor insurance software for companies including Bajaj Capital, Tata, ABIBL, OLA, Insuring All, Renew-by, and others, enabling online insurance purchases.
- Worked on configurators, themes, and comparison pages, allowing customization and dynamic content management for over 10 brokers.
- Integrated APIs and utilized the Redux Toolkit for state management, ensuring efficient data handling and a seamless user experience.
- Addressed and resolved daily issues, continuously improving the software's performance and reliability.
- Collaborated with cross-functional teams, including designers and testers, to enhance the user interface and overall functionality of the software

Core Front-End

- Managed and implemented themes for the software, ensuring a consistent and visually appealing user interface across the application.
- Developed dynamic components using React, enhancing the flexibility and functionality of the application.
- Worked extensively on the UI with Styled-components, MUI Data Grid, and JavaScript, creating intuitive and responsive user interfaces.
- Implemented form validation using react-hook-form and yup, ensuring accurate data input and enhancing the user experience with robust validation mechanisms.

ADDITIONAL

Skills: React, Redux, JavaScript, HTML5, CSS3, Bootstrap, MUI, Tailwind-css, react-hooks, Context-API, Rest-API, Git-hub, and many packages of NPM

Learning : Express.js, Java, Spring-Boot

Languages:, English, Hindi, Marathi, Urdu.
